PROFESSIONAL SUMMARY

Motivated and self-learning Computer Engineering student seeking an internship or entry-level position in a tech-driven organization as a Software Engineer, Database Administrator, or related role. Passionate about problem-solving, and system design, with hands-on experience in programming, project collaboration, and workflow optimization through academic projects and self-study. Eager to apply technical skills and contribute to innovative solutions in a company.

EDUCATION

Bachelor of Computer Engineering (Year3)

Hong Kong University of Science and Technology

Sept 2023 - Present

Graduate in Associate in Information Technology (Distinction)

PolyU Hong Kong Community College

Sept 2021 - May 2023

RELEVANT EXPERIENCE/PROJECT

Imitation of famous mobile app - Quizlet

Developed a Quizlet-inspired Android application using Android Studio, replicating 3 core features including user authentication, data persistence, and interactive quiz functionality. This project deepened my understanding of software development workflows and creating user interfaces.

ATM system by Java

The Java implementation of an OOP ATM system provided hands-on experience with inheritance, deepening my Java knowledge. The development process highlighted notable syntactic and structural differences in OOP between Java and C++.

E-Commerce Database System using MS Access

Designed and implemented a functional online shopping database using MS Access, integrating relational database design, SQL queries, user forms, automated reports, and macros to simulate 4 core e-commerce functionalities, including product search and filtering system, user registration and authentication, shopping cart management and real-time inventory tracking and updates.

RELEVANT SKILLS

Technical

- Familiar with
- Java
 - C++
 - Python
 - Web design (React, JavaScript, CSS, HTML)
 - Database (Mysql, MS SQL)
 - MS Office (Word, PowerPoint, Excel)
 - Using AI Tools

Languages

- Fluent in
- Cantonese (Native)
 - English
 - Mandarin
